

SCHAEFER

LEGENDARY STRENGTH

TUFF LUFF AERO

Wind tunnel tested shape lowers friction, enhancing sail performance

Fine finish surface reduces friction between foil and sail resulting in faster sets and douses

Engineering for high impacts eliminates the need for bumpers

Custom polycarbonate material is lighter, stronger and more durable than comparative systems

Stainless steel, snag-free feeder allows spinnaker sheets to pass freely

Twin grooves allow for easy sail changes

No snag, 2-piece S.S. captive feeder will not peel off

[CROSS-SECTION OF FOIL]

TUFF LUFF AERO

Tuff Luff Aero represents a major evolution of slotted headstay systems. Its unique aerodynamic shape provides at least 9% more lift.

Faster wind reattachment to the sail with less turbulence is also a benefit of this patented teardrop shape. If you have the need for speed, you have a need for Tuff Luff Aero.
